Shamans understand that we have a luminous energy field that surrounds the physical body, and which holds a record of all our emotional, physical, and spiritual traumas; the luminous energy field is a blueprint that determines how we will heal, how we will live and how we might die.

In this introductory lecture, Victoria Johnson, a member of The Four Winds Senior Staff, will discuss the healing practices employed for 10,000 years by the Shamans of the Americas. The ancient practices are presented in a scientific and practical system of energy healing that allows us to discover states of exceptional health and well-being, as well the opportunity for conscious participation in our future evolution.

SATURDAY, JANUARY 16
FULL DAY WORKSHOP, 10.00 AM - 5:00 PM
COST: \$100

In this day long workshop, Victoria Johnson, a member of The Four Winds Society Senior Staff, will share the Shaman's core practices of Energy Medicine. The luminous energy field that surrounds the human body holds the records, or "imprints" of our emotional, physical and psychological traumas and of our wellbeing. The work of a shaman is to bring balance to the luminous energy field.

Topics for Discussion will include:

- The illumination process to clear imprints in the energy field before they have a chance to express as disease in the body.
- A process for extracting toxic energies that have embedded themselves in the luminous energy field.
- Soul retrieval work to revisit past traumatic events and recover the essential self.
- Rites of passage including life and death rites.
